

Dr. Hirokazu Ninomiya

School of Interdisciplinary Mathematical Sciences
Meiji University
Japan

Web: <http://home.mims.meiji.ac.jp/~ninomiya/index-en.html>

Hirokazu Ninomiya received his Ph.D. in mathematics in 1995 from Kyoto University under the supervision of Takaaki Nishida.

He is currently Professor of School of Interdisciplinary Mathematical Sciences at Meiji University. His research interests are mainly in parabolic equations and systems including free boundary problems, especially, entire solutions, pattern formation and roles of diffusion.
