Centered around dynamics, *Discrete & Continuous Dynamical Systems - Series B* (DCDS-B) is an interdisciplinary journal focusing on the interactions between mathematical modeling, analysis and scientific computations. The mission of the Journal is to bridge mathematics and sciences by publishing high quality research papers that augment the fundamental ways we interpret, model and predict scientific phenomena. The Journal covers a broad range of areas including chemical, engineering, physical and life sciences. A more detailed indication is given by the subject interests of the members of the Editorial Board.

- DCDS-B is a monthly publication.
- It is indexed in Mathematical Reviews/MathSciNet, SCIE, Scopus, zbMATH Open, and more.
