## About Journal

The *Journal of Dynamics and Games* (JDG) is a pure and applied mathematical journal that publishes high quality peer-review and expository papers in all research areas of expertise of its editors. The main focus of JDG is in the interface of Dynamical Systems and Game Theory.

It is devoted to the development and the diffusion of mathematical ideas and techniques that arise from the analysis and the modelling of systems where agents (whether they be rational players, markets, plants, animals, ecosystems, communication systems, etc) interact dynamically over time.

JDG is a quarterly publication. It is indexed in ESCI, Mathematical Reviews/MathSciNet, Scopus, and zbMATH Open,
